

MEDICAL UNIVERSITY OF GDAŃSK

POLAND

OFFER IN ENGLISH

ABOUT MUG

Medical University of Gdańsk (MUG) is the largest medical university in northern Poland, located in one of the most beautiful cities in Europe. The MUG educates over 6000 undergraduate and postgraduate students at 4 Faculties: Health Sciences, Medicine, Pharmacy and the Intercollegiate Faculty of Biotechnology.

The MUG is ranked the 7 among all the Polish universities and the 1st Polish medical higher education institution in the 2018 edition of the ranking conducted by the Perspektywy Education Foundation. In the last 4 years the MUG advanced from the 20th to the 7th place in that ranking. It is also ranked in the Academic Ranking of World Universities (ARWU), known as the Shanghai Ranking.

International students constitute nearly 17% of the MUG's students and represent more than half of all international students in Gdańsk. Most of them come from Sweden, Norway, India, the Kingdom of Saudi Arabia, Canada, the UK, the USA, Iraq, Germany and Spain. The MUG organises the Orientation Week, a special week of introductory activities for first-year medical students to introduce them to medical school life and to formally induct in to the profession of medicine. The campus area is situated very close to the classroom buildings. It consists of 4 dormitories with space for 1000 students, the students club „Medyk”, a grocery shop and a photocopy shop. There is also a canteen, which offers meals at student-friendly prices. All the dormitories are connected to the Internet.

Thanks to the funds provided to the MUG by the Foundation for Polish Science as part of the International Research Agenda programme (Międzynarodowe Agendy Badawcze – MAB), a research centre has been established that specialises in research on acquired genetic aberrations acquired as a risk factor for cancer and other diseases.

The MUG constantly improves its clinical and teaching facilities. In the end of 2011 the University Clinical Centre has been successfully modernised. Our main hospital – the Invasive Medicine Centre (IMC) is one of the most modern hospitals in Europe.

The new investment of the MUG – Non-Invasive Medicine Centre (NIMC) together with the IMC, will be one of the largest and newest hospital complexes in Poland. We have also modern Sports Centre.

The MUG cooperates with more than 50 universities and scientific centres around the world, i.e. it conducts an exchange of students and faculty staff members in the framework of the Erasmus+ programme and is an active member of European organisations – the Scan-Balt and the Baltic Sea Region University Network.

Since 2009, the University has been a member of „Study in Pomorskie”, a programme which promotes universities from our region outside Poland.

ORIENTATION WEEK

The MUG offers all its new students and incoming Erasmus students a one-week orientation programme before the beginning of the academic year. A number of activities are designed to introduce students to the realities of school life in MUG and to formally induct new students into the profession of medicine. Major activities include Welcome and Overview, Sharing Our Identities, Polish Language Course, Matriculation Ceremony, Social Events, Student Resources, Stress Management/Mental Health. The Orientation Week helps the incoming students become acquainted with the MUG campus, student life, the teaching structure at the MUG and accommodation.

The Computer Education Center and Main Library staff provide students with a comprehensive overview of the MUG internal computer network (Extranet) and library resources. Students take a tour of the library and learn how to access its printed and online resources.

Last but not least, the Orientation Week also gives the new students some knowledge of the Polish language. During the course participants will practice speaking and writing skills. It helps participants to communicate effectively and to create relationships.

SOCIAL EVENTS

New MUG students together with the Erasmus students from the University of Gdańsk, Gdańsk Univer-

sity of Technology, Academy of Fine Arts in Gdańsk meet and share their experiences.

New students will get to know the organisations working in the University and get useful information about visas, address registration, public order and safety regulations and health insurance required in Poland.

Additional activities – trips around the city with sightseeing are organized and conducted by second-year students and Erasmus Students from MUG organization (ESMug).

At the end of Orientation Week we organise with other universities in Gdańsk Orientation Party.

6-YEAR M.D. PROGRAMME

Candidates from around the world have an opportunity to apply for the 6-year M.D. Programme at Faculty of Medicine (English Division) at the Medical University of Gdańsk. The extended curriculum is based on strict European and US standards. Upon graduation, students receive a diploma of M.D. and can apply for a license to practice medicine. Program begins at the end of September with obligatory Orientation Week.

ADMISSION – GENERAL CRITERIA

Candidates have to be at least High School graduates and are admitted on basis of their position on the ranking list. The position on the ranking list is based on the total amount of points achieved in the following:

1. The number of points calculated from their grades recorded in the official high school transcript/maturity certificate. Two grades out of the following four subjects are required and taken for evaluation: Biology (obligatory) and Chemistry, Physics or Mathematics. Each of two required subjects has to be taught at the advanced level;
2. The number of points achieved during obligatory entrance exam in biology and chemistry at the High School level which is organized by the University. It will take a place either at Medical University of Gdańsk or at the selected location (Norway, India, UAE, Sweden, Hungary, Iran, Nigeria) co-organized by official MUG recruitment partners. Entrance exam consists of written part (MCQ test – topics, example questions see website),
3. If necessary (Admission Committee's decision), interview based on English language proficiency, motivation and predisposition for medical profes-

sion and the knowledge of selected subjects (topics for review see website).

Candidates with IB Diploma are selected on the basis of their scores from IB Diploma in biology HL (obligatory) and one selected subject from: chemistry, physics and mathematics HL, as well as score from an interview (see above). If candidate passed the subjects at the SL, mentioned above written part of entrance exam is required.

Candidates have the possibility to apply via University Admissions Office (www.admission.mug.edu.pl) or one of the officially cooperating recruitment companies depending on citizenship (see website).

More information at
www.admission.mug.edu.pl/1447.html

CANDIDATES INTERESTED IN APPLYING FOR 6-YEAR M.D. PROGRAMME SHOULD:

1. Register online at www.admission2019.mug.edu.pl
2. Fill in online application for the M.D. Programme
3. Submit required documents to the MUG's Admissions Office or the proper recruitment company before specified deadline.

(for details, please see website).

REQUIRED DOCUMENTS:

- signed application form (printed from the electronic candidate database)
- a copy of the high school diploma (or its equivalent) with transcript of grades in the candidate's native language certified by candidate's school or by a public notary
- an English translation of the above original document, translated and certificated by candidate's school or by a sworn translator (does not apply to documents in English or Polish)
- a photocopy of the applicant's passport certified by a public notary

- two recent (size 35x45 mm) photographs (head not covered) signed at the back
- a certificate confirming English language skills (optional).

TMC, NCFMEA, WFME, ARWU

DEADLINE FOR APPLICATION 15TH OF JULY 2019

5,5-YEAR MASTER OF PHARMACY PROGRAMME

Pharmacists are experts in medications who work together with doctors, nurses and dentists as part of a healthcare system. During our programme students will understand the science behind drug discovery, their development and delivery along with how patients react to the medicines they take. Program begins at the end of September with obligatory Orientation Week.

The 11-semester (5,5-year) pharmacy programme, including 6-months pre-registration training in an approved pharmacy leads to the degree of Master of Pharmacy and allows for a registration as a pharmacist in Poland. The Polish registration is recognised in other European Union member states.

ADMISSION – GENERAL CRITERIA

Candidates have to be at least High School graduates and are admitted on basis of their position on the ranking list. The position on the ranking list is based on the total amount of points achieved in the following:

1. The number of points calculated from their grades recorded in the official high school transcript/maturity certificate. Two grades out of the following four subjects are required and taken for evaluation: Chemistry (obligatory) and, Biology, Physics or Mathematics. Each of two required subjects has to be taught at the advanced level;

2. The number of points achieved during obligatory entrance exam in chemistry and biology at the High School level which is organized by the University. It will take a place either at Medical University of Gdańsk or

at the selected location (Hungary, Iran) co-organized by official MUG recruitment partners. Entrance exam consists of written part (MCQ test – topics, example questions see website),

3. If necessary (Admission Committee's decision), interview based on English language proficiency, motivation and predisposition for pharmaceutical profession and the knowledge of selected subjects (topics for review see website).

Candidates with IB Diploma are selected on the basis of their scores from IB Diploma in chemistry HL (obligatory) and one selected subject from: biology, physics and mathematics HL, as well as score from an interview (see above). If candidate passed the subjects at the SL, mentioned above written part of entrance exam is required.

Candidates have the possibility to apply via University Admissions Office (www.admission.mug.edu.pl) or one of the officially cooperating recruitment companies depending on citizenship (see website).
